EZVIZ *DL04*

Smart Deadbolt Lock

EZVIZ Connect ™

Keyless unlocking, simpler home routines

Ever locked yourself out, hid a key under a flowerpot, or had children who lost their keys? Say goodbye to the hassle of your traditional lock while making your home entrance securer. The DL04 provides keyless, seamless unlocking methods, so you can use a passcode to enter, or slide open a door as easy as unlocking your smartphone. Saving you both time and money, the DL04 does not require a bridging hub to unlock internet-connected features, and can be installed in a much simpler, quicker way. The DL04 also better secures your access in multiple ways – it uses an auto-locking feature and real-time status check to prevent a left-open door, and can become integrated with EZVIZ cameras to build a security system.

Supports
2.4 GHz Wi-Fi

Multiple Unlocking
Methods

Passcode
Unlocking

Supports
Anti-Peeping Codes

Remote Unlocking
via the EZVIZ App

Power Supply (Type-C)

Unlock the way you like

With the DL04, now you can enjoy flexible access options either entering passcodes or simply sliding on your smartphone. No need to worry about battery life – and for those who prefer traditional keys, the DL04 also supports mechanical key access.

Passcodes (Up to 50 sets)

App Remote Unlock

Temporary Visitor Codes (Valid up to 1 year)
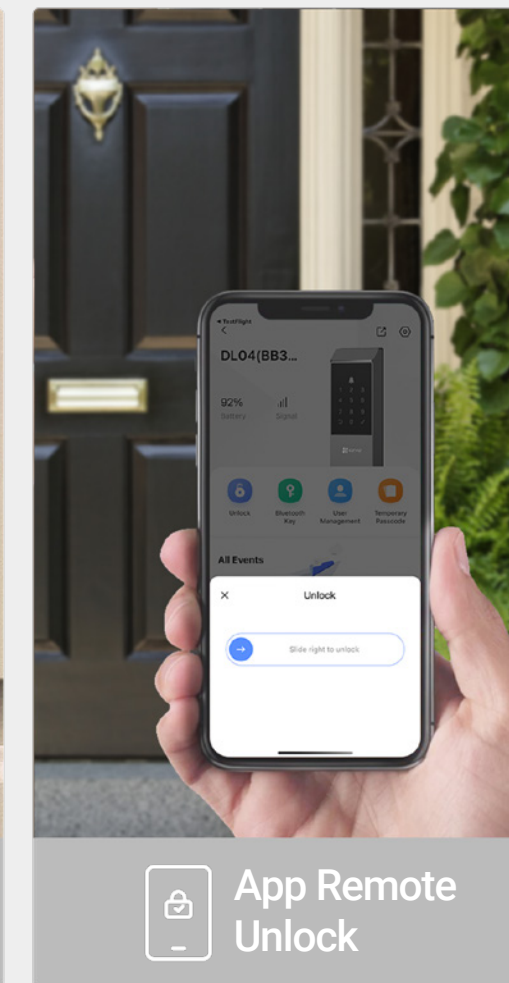

Direct Wi-Fi connection for an easily smart front door

There's no need to pay for an extra accessory or a hub to get your lock online before you start enjoying smart, remote controls. Simply pair the DL04 with your home Wi-Fi, and use the EZVIZ App to customize its settings and manage lock activities.

User Device

Home Wi-Fi

DL04 Smart Lock
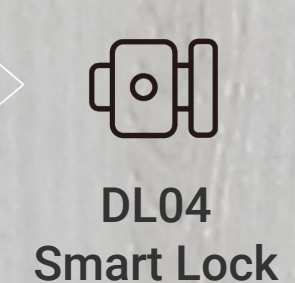

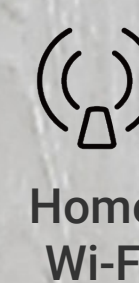

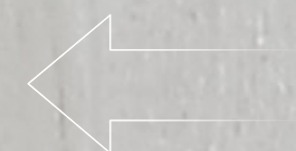

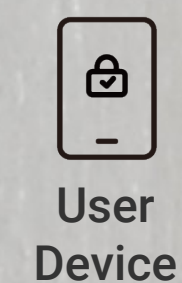

Easily assign and manage secure access

When family or friends come to visit, you don't need to hide keys under the carpet or stay until they arrive. With the EZVIZ App, you can create permanent or temporary access for the ones you trust with customized unlocking methods.

Family members
who visit on holidays

Close friends
who come by often

Babysitters or pet walkers
who walk in regularly
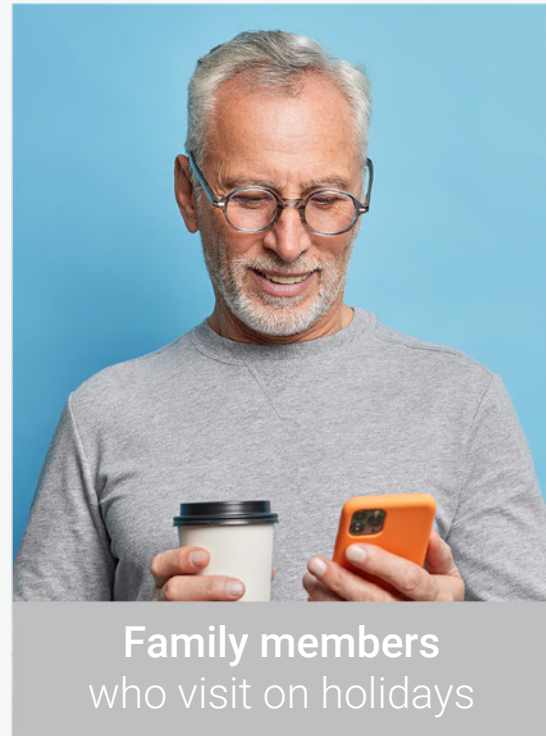

Instant alerts on a left-open door

Can't remember if you've closed your door when leaving the house? The lock has your back and checks it for you, by working with an added EZVIZ open / close sensor.[2]

EZVIZ Just now

DL04 (BC58..
User1 Opens the Door
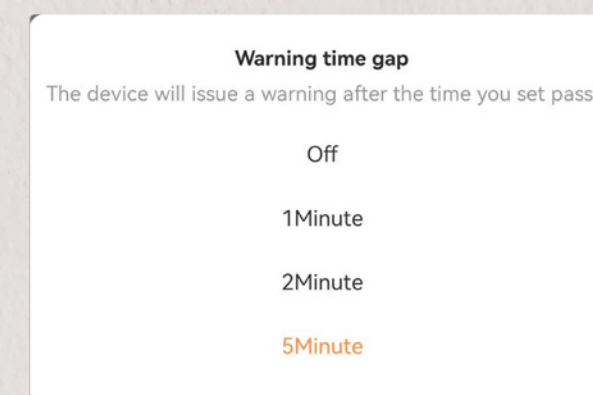

Various notifications
to keep you better informed

No matter where you go, you can know who enters and how they enter with a quick glance at your phone. You'll also receive notifications when the lock is low on battery, or if someone tries to force the door open.

Guard and protect wider,
with interconnected security

The DL04 can also smartly trigger an interlinked EZVIZ pan-and-tilt camera[1] to start recording videos, so you not only know when the door gets opened, but also see who enters. By adding an EZVIZ camera, you can effortlessly create an automated, useful home security system.

Reliable use,
ready for emergencies

The DL04 runs on replaceable batteries for long-lasting performance, and supports emergency charging using a power bank. You can enter your home even if the batteries are completely dead. In extreme cases, the included mechanical key can be used for unlocking.

Mechanical Key (for emergency)

Supports Emergency Charging

Type C

Safely designed at multiple levels

Sets off a loud siren when forcibly removed

Locks up automatically when the door is closed²

Prevents access decoding

Correct password

Supports long, anti-peeping codes

IP55 weatherproof design³

1. The DL04 currently supports the following cameras to record a video at the certain preset viewing angle upon sensor detection: H6c, C6N, CP1, TY1, TY2, H3, C8W. The list may grow as EZVIZ launches more compatible products in the future.

2. The left-open alert and auto-lock function require using with a compatible EZVIZ open / close sensor (e.g. T2C), which is not included in the box. Please verify the product compatibility before making a purchase.

3. Please note that only the exterior lock panel of the DL04 is weather-resistant.

Specifications   CS-DL04

Technical Parameters

Product Material	Aluminum + Plastic
Dimensions	Front Panel: 160 × 67 × 25 mm (6.29 × 2.63 × 0.98 inch) Rear Panel: 166 × 70 × 28.5 mm (6.53 × 2.75 × 1.12 inch)
Communication	EZVIZ connection 2.4G Wi-Fi
